

Repair Evaluation Fee Update – Effective January 1, 2026

Dear Customer,

Milpower Source is committed to delivering high-quality support and service. We have maintained the same Repair evaluation cost for the past six years. However, following a recent review of our RMA process and associated costs, we will be updating our **Repair Evaluation fee to \$1,500 per unit, effective January 1, 2026.**

This updated fee will apply to units returned under the following conditions:

- **Out of warranty**
- **No failure found**
- **Beyond economical repair**

We appreciate your understanding as we continue to enhance our service offerings. If you have any questions or concerns regarding this update, please feel free to contact us directly.
